PASSION PROJECTS

- Re:invent-io is a project designed to allow ideas to flow more easily from employees to the people who are able to make decisions. Furthermore, it builds a collaborative effort among employees. http://reinvent-io.herokuapp.com
- Gigify brings a connection between what a user listens to on their Spotify, and the live shows that are presented on Bandsintown. In this way, a person's passion for music is satisfied both digitally, and live. https://tzlomke.github.io/gigify/
-C.J. Frei Artwork takes a man's passion for digital, bisual art, and allows him a platform on which to display it. https://thawing-ravine-93395.herokuapp.com/
